EDUCATION

Guru Nanak Dev Engineering College   **SGPA-7.54**
Bachelors of Technology in Computer Science and Engineering   2021-2025
Class 12   **Percentage-75.2%**
Kendriya Vidyalaya NO. 1RCF, Hussainpur   *2019-2020*
Class 10   **Percentage-76.4%**
Kendriya Vidyalaya NO. 1RCF, Hussainpur   *2017-2018*

TECHNICAL SKILLS

- **PYTHON**
- **Machine Learning**
- **C/C++**
- **HTML, CSS, JavaScript**
- **Data Structures and Algorithm**
- **SoftSkills:**Leadership,Analytical,Persistent,ProblemSolving,Communication,Teamwork,Organized

WORK EXPERIENCE

- **HackTU 5.0 Hackathon**
  I participated with my team in hackathon in which crypto based payment gateway was developed.
  Was held at Thapar Institute of Engineering
- **Python with Data science and ML**   **Trainee**
  Online Course offered by IBM   July 2023
  Learnt Python programming through hands-on projects
- **Full Stack Development**   **Trainee**
  Course offered by Novem Controls   July 2024
  Learnt Full stack technologies

PROJECTS

- **Sign Language Recognition System:**
  The major goal of this project is to deliver speech and text output for deaf persons utilizing hand gesture sign language without the use of any sensors in a smart method. Sign language gestures to text and subsequently text to speech. This system should provide real-time control and feedback, ensuring a seamless and efficient user experience.
- **Crypto Based Payment Gateway**:
  Crypto currency payment gateways are software platforms that allow businesses to accept crypto currency payments for goods and service. Crypto currency payment gateways offer features like real-time transaction confirmation, automatic conversion to traditional currency, and high-grade security protocols to prevent potential fraud
- **Resume Builder and ATS**
  Application Tracking System that will help employers to filter resume based upon specific keywords and criteria

CERTIFICATIONS

- Python with Data Science by IBM –July 2023
- Machine Learning by IBM – July 2023
- Angular React by Infosys-August 2023
- Full Stack Development by Novem Controls- August 2024
